- Brisbane's Dawn Daylight will be singing in tune with the environment

# World Environment Day

We can each make a difference to the world.

See how on World Environment Day, Monday June 5, King George Square from 10am to 4pm. Official opening at lunchtime by Lord Mayor Jim Soorley.

Learn simple savings using alternative energy sources.

See solar-powered cooking, hear wind-powered radio.

And there's more, with activities and entertainment all day.

Oh. And our thanks to OSRAM - "technology brought to light" - for their generous contribution of energy efficient globes.
